

ONE WAY

Follow

(Off:)

„Keep up.

Follow him. Follow her. Or all the others you might prefer.

Follow #kylie, #kendall, #thetwins.

Follow funny things.

Follow your friend's cat. Follow pets that wear a hat. Like this. Like that.

Follow the news. And brand-new music. Follow the latest trend and use it.

To follow the dream of someone else. Someone you don't know, someone who tells

You to follow orders. To follow the plan. To follow the money as best as you can.

Because that's just the way it is.

-

Except - when you find a way out of all of this.

Somewhere where you're on your own. Where you set your limits, all alone.

Where you set the pace. And face your fears to find your place.

To be amongst those who reach their goal - with courage, heart and soul.

We'll be there right by your side. On a path, only you decide.

Follow your own way."
